

DESCRIPTION

Practical travel backpack made from PU leather. Provides large storage capacity thanks to its main compartment with a mesh divider with zip closure, and a second expandable compartment with zip closure. It also includes several interior pockets for smaller items, one made from mesh fabric and another in translucent waterproof material. Includes a padded anti-theft compartment with internal pocket, specially designed to store a device up to 12". The zip closure of the main compartment is water repellent, making it ideal for protecting the contents. On the outside, it features a smaller front pocket, a pocket for bottles. The back panel and shoulder straps are padded, with buckles on the straps for improved adjustment and a rear opening for trolley use.
