

BRUNOX MO1992

DESCRIPTION

Large capacity travel backpack made from 600D RPET with 180 degree opening. Features a large capacity main compartment with small internal separators with different sizes, to make it easier to organise and store belongings. The adjustable buckles on the sides allow the contents of the main compartment to be secured and adjusted. Incorporates a large outer front pocket with zip closure. On the back, it features a padded compartment. It also includes two side pockets made from mesh fabric with elastic adjustment for carrying bottles, as well as an anti theft pocket on the rear of the backpack, which also serves as a storage space for the shoulder straps. These straps can be detached from the body of the backpack thanks to the integrated carabiner. For greater carrying comfort, this backpack features both carry handles and an adjustable shoulder strap, which can be removed using carabiners. Both the handles and the back are padded. Includes trolley strap.
