

DONIX SW1046

DESCRIPTION

The Activity Smartwatch combines a sleek design with advanced features to meet your daily needs. With its metallic finish dial and silicone strap, this watch offers a modern and sophisticated look. The 1.89 -inch IPS touchscreen provides an immersive and clear viewing experience. In addition, it has dust and water resistance with an IP67 rating, giving you peace of mind to use it in any environment. With more than 100 sports modes, this watch adapts to your active lifestyle and features heart rate monitoring, allowing you to keep track of your activity levels and optimize your performance. Call control allows you to receive notifications and manage your calls directly from your wrist, without the need to take out your phone, with voice assistants for easy control as well as the function of finding the smartphone that helps you locate your phone in case of loss. By connecting to an iOS and Android compatible app, you can access detailed statistics, set activity goals, and track your progress in real-time. The USB charging cable included gives you an easy way to recharge your battery. Presentation in design box.
